

**NRAP WEBINAR SERIES
WEBINAR #1**

Mitigating Induced Seismicity through Active Pressure Management: Simulation Based Studies

Presenter: Kayla Kroll, LLNL

NRAP Webinar Series

November 1, 2016, 2:00 pm ET.

This presentation will discuss our ability to use physics-based reservoir and earthquake simulators to conduct experiments that test the efficacy of active pressure management techniques at reducing the risk of induced seismicity.
